Dear Sir:-

In response to your note of yesterday concerning the cost for the work done upon President Gilman's Address up to date, we would say that while there has been some time work expended upon two or three occasions, we shall not charge any more than the price named per page, which was seventy-five cents. The matter makes thirty-two pages. *\$24-*

To page the matter as it stands and print 1000 copies in the same size and on the same paper like in the sample which you sent us (which we return herewith) would cost \$32.50.

We are not positive that we can obtain the identical paper used for the text. This is made by a party in New York and we shall not be able to supply it, unless they happen to have it in stock, as the quantity is small, too small to be made to order.

Yours truly,

THE FRIEDENWALD CO.,

Mr. N. Murray,

Johns Hopkins University, City.

Dear Sir:-

We are not able to send you a proof of the title page of Dr. Gilman's Address on the paper upon which we have estimated for, because we have none of it on hand larger than the sample we sent you yesterday. We have not yet heard from New York from the maker of this paper whether he can supply it.

We send by bearer proofs of the title page made upon a similar paper. This is somewhat more costly and heavier in weight, and we are not sure whether we can obtain this paper from the mill that makes it. If we can it would cost about \$4.00 per thousand more than we have already quoted.

We are sorry to be unable to give you more definite information upon the subject of paper, but the size you have selected is an odd one and we are dependent upon information from out of town.

Hoping that the sample sent will answer your purpose, we are,

Yours truly,

THE FRIEDENWALD CO.,
